See Reverse Side
for More Information...

Our team of experienced craftsman have provided the construction industry with custom ornamental fabrications, architectural railings (aluminum, stainless steel, bronze and steel) and monumental/circular stairs since 1987. All of these are available in a wide variety of finishes including painted, polished, anodized, laquered etc...

Our fabrication shop is equipped with extensive welding and finishing equipment including the following CNC machinery: pipe and tube bender, press brake, shear and mill. We also offer our customers optional field measuring and installation services.

Typical installations include museums, shopping malls, schools, parks and all forms of commercial structures. Q.A.F. is capable of successfully handling jobs from the smallest custom applications to projects with values of several hundred thousand dollars.

Contact Q.A.F. for assistance with preliminary architectural design, specification development or engineering drawing preparation.
